VHID : 96273

IP : 40784

ADMITTED ON : 27/01/2018

TREATING DOCTOR : DR. RAVINDRA S. RAO.

FEEDBACK

My mother underwent the procedure of Transcatheter Aortic Valve Implantation (TAVI) on 30.1.18, under the care of Dr. Ravinder Singh Rao.

She was a very high risk patient, having co-morbidities too (lung disease, previous heart attack). But the entire procedure was carried out successfully by the team of doctors.

Dr. Ravinder Singh Rao is an excellent doctor. I appreciate his expertise, concern towards the patient. Before the actual procedure, he carefully did a detailed study of each and every aspect of the case. During his ward rounds, he used to explain everything in detail to us. His reassuring words helped us to overcome the fear of the operation. Other than being a good doctor, his caring and positive approach made the hospital stay very comfortable and pleasing for the patient and us.

(P.T.O.)

He is accompanied by a team of highly experienced doctors, who took a very good care of the patient.

Dr. Navneet Mehta is an expert cardiac anaesthetist, who too gave us tremendous support and assurance from the day of admission till discharge. He helped us in all aspects during our stay.

The team of doctors took closely monitored her post procedure (Dr. Maveen Gupta).

She was under the care of Dr. K.K. Sharma, pulmonologist, for her preexisting lung problem. He took a very good care of her and managed the problem very efficiently.

All the doctors gave ample time to the patient, cleared all the doubts which we had in our mind.

The hospital staff is very polite and efficient. Very well managed food and house-keeping services.

We thank you Dr. Ravinder Singh Rao, Dr. Navneet Mehta, Dr. K.K. Sharma and the team EHCC for all the medical management, support and care.

Dr. Anjali Gupta (Bhat)
